Appln. No: 10/549,996  
Applicants: Joji Fujiwara et al.  
Filed: September 19, 2005  
Title: MODULE COMPONENT AND METHOD FOR MANUFACTURING THE SAME  
T.C./A.U.: 2813  
Examiner: Latanya N. Crawford  
Confirmation No.: 1009  
Docket No.: MAT-8744US

**INTERVIEW SUMMARY**

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

An interview was conducted with the Examiner and her Supervisor on November 17, 2008. During the interview the Examiner and her Supervisor stated there was proper antecedent basis for the claimed subject matter. Accordingly, the Examiner and her Supervisor agreed to withdraw the objection to the specification. The Examiner and her Supervisor also admitted that the prior art does not disclose the features of claim 1. Further, the Examiner and her Supervisor stated that if claim 17 were amended to include features of claim 1, namely "a composition of resin and an electrically conductive material," then the obviousness rejection of all the claims would be withdrawn.

Respectfully submitted,
